

Controlled Substances Refill Policy for Courthouse Family Medicine Patients

We would like to Thank You for being a member of our practice patient family and allowing us to serve your medical needs.

We **ALWAYS** encourage our patients to bring any and all of their medications (prescription and or over-the-counter) to **EACH AND EVERY** one of their visits. The most appropriate time and place for **ALL** medication refills to be addressed is at or during your office visit. We make every effort to refill all medications during your office visit.

Effective February 1, 2015- there will be **NO** controlled substance refill requests permitted **WITHOUT** an office visit.

We regret any inconvenience that this change in policy causes.
